

The successful implementation of the NumberSense Mathematics Programme.

The NumberSense Mathematics Programme (Aarnout Brombacher) is presenting a workshop for Grade R to 7 numeracy/mathematics teachers.

This workshop has been designed to guide and support teachers who are early on in their journey of implementing the NumberSense Mathematics Programme. The workshop will also be of interest to teachers who have been implementing the programme for some time but who want to refresh their understanding or refine their implementation.

Date: Fri 31 January 2025 & Sat, 1 February 2025

Venue: Southpoint Studios: Sunrise House (entrance 5), 75 Morningside Street, Ndabeni, Pinelands, 7405

Note: we are exploring a new workshop structure that is intended to be more responsive to the different needs of Foundation and Intermediate/Senior Phase teachers.

- Session 1: (Friday 14:30 to 17:00): Foundation Phase focus.
- Session 2: (Saturday 08:30 to 12:30) Generic content for both Foundation and Intermediate/Senior Phase teachers.
- Session 3: (Saturday 13.00 to 15:30): Intermediate/Senior Phase focus.

Ideally, Foundation Phase teachers will attend sessions 1 and 2, while Intermediate/Senior Phase teachers will attend sessions 2 and 3. All participants are welcome to attend all three sessions.

You will be required to indicate which sessions you will be attending as part of your registration. A registration is not transferable/shareable - one registration, one person.

Cost: R 695 (2 sessions) / R 995 (3 sessions). Includes: teas, a light finger lunch and workshop handouts (if any).

To attend, please register online or download and submit a manual registration form, at www.NumberSense.co.za/events.

On receipt of your registration details, we will email you an invoice which must be paid to reserve your place at the workshop. Spaces are limited so book early to avoid disappointment! Note: cancellations made less than 48 hours before the workshop cannot be refunded.

General enquiries: events@NumberSense.co.za or 021-706-3777.
